### *Packing suggestions and additional travel tips*

Assuming that you intend on traveling on safari during your stay in Africa, you should make every effort to pack your belongings into one large waterproof duffel bag or backpack and one 'carry on' style bag for cameras, valuables and day trips. Chances are you will have limitations in your safari vehicle and, in some cases; travel on small aircraft (if part of your itinerary) limits you to 15 kgs / 33 pounds. If you plan on doing a lot of souvenir shopping, you might consider carrying another bag tucked in your suitcase to help judge your limits.

Important - For persons crossing the Atlantic Ocean from North America and connecting in Europe to Africa, International air carriers limit carry on bags to one and checked bags to two per passenger. Persons departing from Europe have weight restrictions on bags as well, varying with the carrier.

If you are doing a lot of traveling and need to carry more than the suggested items, keep in mind that you may be required to leave them at the town hotel.

Laundry service in Tanzania is often a bargain but not in the Lodges.

Advice - The customs and culture of East Africa, especially in coastal areas and Zanzibar are conservative. Revealing or very tight clothing should be avoided.

Common drugs such as aspirin, cough drops, Pepto Bismol, etc.

Vitamins that you might normally take

\* these items are very strongly suggested.

### **Packing Your Duffel Bag**

#### ***Clothing and equipment:***

Please travel light. You will be allowed two separate pieces of luggage on safari: one duffel bag and one day pack. There will be opportunities to do laundry along the way and it is always easier in airports and in camps to

move a lighter bag. In an effort to make life easier for trip members we supply all bedding on our safaris in Africa. The following list is for all trips.

#### ***Luggage***

- 1 duffel bag, internal frame pack or soft suitcase. A duffel bag should be strong and durable, preferably of nylon, with full length zipper and handles. Due to the limited space on the safari vehicles, all your clothing and gear must fit in this bag; no exceptions are allowed. We recommend a minimum duffel of 30' x 14' and a maximum size of 36' x 18'. Remember that 20 kg weight limit applies (Tanzania 15 kg). Hard suitcases are usually scuffed or damaged in transit and are inappropriate.

- 1 small padlock to lock suitcase or duffel.

- 1 day pack; for camera gear, water bottle and personal items needed during the day. Some packs have side pouches which are great for storing water bottles.

If you suffer from motion sickness, don't forget to use your preferred medication - patch or tablets.

### **ACCESSORIES**

some other things you might consider for your trip:

- binoculars
- water bottles
- pens, paper, journal
- a good novel or two
- Zip-Lock type bags to keep the dust and moisture out of stuff and keep your wet swimsuit in
- A couple large plastic trash bags to wrap stuff in should it rain (your bags may travel on racks on top of the vehicle)
- Money belt or similar. The best is a pouch that fits in front inside your shirt or slacks.

### ***Additional packing list for Camping Safaris (on the more basic trips)***

- two or three medium size towels
- soap (in a plastic soap dish for easy travel) & shampoo
- sleeping bag
- Tip - If you are not planning on camping often, you can usually find buyers for sleeping bags and other items if they are in good, clean condition.

### **IMPORTANT THINGS TO KNOW (also, see the other travel tips found on the FAQ site)**

You will need visas for entry to Tanzania. Though you can get these in right at the point of entrance, your travel will go smoother if you get them in advance through the respective embassies. (Please check at <http://www.tanzania.go.tz> if you will need VISA or for closest place you can apply VISA you may also download VISA form from this site)

Make a photocopy or list of the following items: Passports (including the page with the visa stamped in them and the pages with photos and data), plane tickets, yellow booklet showing your yellow fever vaccination, list of all medications you might require, listing of all travelers' cheque numbers, list of serial numbers for cameras, etc. Keep this list someplace apart from where you keep these other items.

Keep track of your passport above all. Loss of a passport can destroy your trip and cost considerable money during the time required to replace it.

On your international flight, pack as if the airline might lose your bags. Keep things you will need right away in your carry-on. It seldom happens, and almost always the bags arrives a couple of days later, but this way, if the bags do not arrive To make it easier please provide this address to the Airline

### **WHAT TO DO WHEN YOU'RE BAGS GET LOST AT THE AIRPORT**

We naturally hope you don't lose your bags, but it does happen. If your bags do not show up, do the following:

Report the problem to your air carrier INSIDE THE AIRPORT at the Baggage Claim - before passing the CUSTOM -and fill out the required paperwork.

Request compensation for your inconvenience (often \$50.00 for emergency purchases and a bag with simple toiletries and a tee shirt)

Ask them when they expect the bag will arrive and tell them where you will be based on your itinerary.

LEAVE THE KEYS AND/OR COMBINATIONS WITH THE AIRLINE so they can clear the bags through customs.

Ask the airline to go with you to advise Customs Officer that bags were lost so there will be no problems further in getting your bags cleared when they arrive.

- Recommended inoculations
